Minimum Contract Term

Available with either a no lock-in contract or a 24-month term. Early termination fees may apply for fixed-term contracts.

Customer Equipment Required

A compatible router or modem is required. Customers can use their own device or request one from NBN PRO during signup.

Installation and Availability

Service availability depends on your location and NBN technology type (FTTP, FTTN, HFC, FTTC). Installation appointments will be coordinated where necessary with NBN technicians.

Important Limitations

Actual speeds may vary due to network conditions, connection type, and equipment configuration. NBN PRO's Business NBN services are subject to an Acceptable Use Policy.
